## Info

The guys of Society-OFF have been touring unremittingly since 2006. Apart from an impressive number of nearly 200 shows throughout Germany the four are also proud to present their first full-length album. In September 2011 they started their own tour through Germany to promote "Carry Or Collapse". Furthermore there is quite an impressive list of bands they have supported so far. During the last years they have been on stage with Strike Anywhere, Death By Stereo, Nations Afire, No Use For A Name and many others. Playing live is what defines them! So if you're into energetic punk rock you shouldn't miss one of their shows and check them out! Tour dates are available online [society-off.com] and on all relevant social networks.

## Stage and monitoring

The stage should be big enough, please! A drum raiser would be great [2x2m are OK, 30-50 cm height]. Of course we'll need power supplies for our AMPs, and enough space for our backdrop [3x1m] if possible. Hooks would be nice. At open air shows please make sure that the stage is secured against rain, storm and other weather conditions to all its sides. For our monitoring we need 3 wedges or sidefills in the front. Drummer Marvin has his own monitoring of kick and click. He brings his own mic, a small mixer and headphones, so the rest of the band actually only needs one way. If you had more, we'd certainly use them! A stage plan can be found on the back of this sheet.

## PA

A mixer with about 14 channels would be great if you picked it all up, but we are used to playing shows with only 3 channels/mics anyway, if it is a really small club! To provide a good show the PA should have enough power. Depending on the size of the room and number of people in it, it should provide something between 2 and 5 thousand watts. It's your venue - so you will know best...

## Lights and Effects

We will need bright [preferably white] light when we're taking our equipment to the stage and back down. 6 - 12 x Par64 red/blue/yellow/green are cool! And PLEASE - **no fog during our gig!**

## Other

We'll bring a complete backline that may be used by other bands. It includes the following: 2x MESA Boogie 4x12 cabinets, 1x Ampeg 8x10 cabinet, kick drum, floor-tom, TomTom, stands. We're not sharing our amps/guitars/expendable material though! Please make sure that all bands bring their own ones!
